COMMUNITY EVENT · FALL 2026

Computational Innovation in Pharma: Harnessing Human Data and AI to Transform R&D

JN

Jan Nygaard Jensen

Global Head of Computational Innovation, Boehringer Ingelheim

Presented by Yale Ventures

About the Event

Jan Nygaard Jensen discusses how computational science and AI are transforming pharmaceutical research and development. Drawing on examples from Boehringer Ingelheim, he explores how human data, computational biology, data science, and AI are advancing research and driving innovation.

For students, researchers, faculty, and professionals across Yale's computational biology, data science, AI, and life sciences communities.

DATE & TIME

Friday, October 2, 2026 · 1:30–2:30 p.m. Eastern

LOCATION

101 College Street, first-floor conference room

Open to the Yale community only.

Join the conversation.

Registration required.
